1.1. **Theorem.** *This is 1.1. Theorem. Note that the `\swapnumbers` command is invoked in the preamble.*

1.2. **This is 1.2. subsection.** Note that the equation counter is numbered within the subsection counter and that the theorem-like environments are numbered with the equation counter.

1.2.1. *This is 1.2.1. Subsubsection.*

1. **Remark.** *This is an 1. Remark. Note that `\remark` has a counter separate from those of many of the other theorem-like environments.*

Remark. This is an unnumbered Remark.

1.3. **Proposition.** *This is 1.3. Proposition.*
