Introduction

This is the main document. We use **custom commands** here.
Now we can use *input command*.

Chapter 1

This is content from chapter 1. We define new commands here too. This function is related to the main document

Let's use include command from chapter1.

0.1 A Subsection

This content is from a subsection file. We use LOCAL COMMANDS here.
We also use **main document commands** and *input file commands*.
Finally, we use ANOTHER INPUT.
